Great White Shark

12708 VH
S 56 min 1995 BBC
Thanks to an extraordinary courageous film crew who strapped a motion-picture camera to the back of a marauding great White shark we see the animal in action. This brutally effective hunter, selective and beautifully adapted to its predatory lifestyle, is also vulnerable to destruction. Its one enemy is the world's most indiscriminate killer the human being. Use this film to illustrate fundamental principles of survival of the fittest, the complex relationship between predator and prey, and the awe-inspiring behavior of one of nature's most impressive species.

Shattering Stereotypes: Cat's Eyes

12868 VH

JS 16 min 1997 AIMS Instr. Media Services Inc.

Through dramatization of high school students at a costume party, this thought-provoking program demonstrates that persons with disabilities are really no different from anyone else. When Catherine a teen with blindness attends a friend's party, no one is told that she is blind. As the other guests discover the truth, some begin to stereotype Catherine and feel the need to behave differently around her than they do with the rest of their friends. Catherine shows them that she is not so unlike them after all. At the close of the program, it is revealed that the actress who portrayed Catherine is a sighted person while, in real life, the hostess of the party is a college student with blindness.
