I Wanna Be

Astronaut

14032 VH
PI 30 min 1996 Media Pro

Blast off into the heavens as host Steve Pool takes kids on a tour of this exciting glamorous profession. Real space shuttle astronauts tell what it is like to go into space. They explain how weightlessness feels. What they eat in space, and the dangers of space travel. Steve also looks into the history of the space program from Mercury to Apollo and shows kids what the new international space station is going to be like. Space flight is an exciting and rewarding endeavor and few are selected. In this program kids will find out how they can be one of the few.

Ballet Dancer

14033 VH

PI 30 min 1996 Media Pro

There is nothing quite like the grace and skill of a ballet dancer. But what is it really like to glide and leap across the stage. In this exciting program, host Steve Pool takes kids to a real ballet company and school. The dancers answer all kinds of questions a youngster might have: What are the basic steps? How hard is it really? How do you dance on point? How often do you train? Both boys and girls will be fascinated as they watch other students in class and an actual ballet performance.

Career Development; Career Education

Fire Fighter

14034 VH

PI 30 min 1995 Media Pro

Almost every kid dreams about the excitement of being a firefighter. In this action packed video Steve Pool shows just what it takes to battle fires. First, we'll tour a working fire station, and go for a ride in a million dollar ladder truck, then we'll visit the firefighting academy. Finally, it's off to watch as new recruits battle a large house fire, (a practice fire) and a burning tanker truck. You'll be amazed at the scene as the structure burns to the ground, with flames leaping high into the air.

Career Development; Career Education

Jet Pilot

14029 VH

PI 30 min 1995 Media Pro

In this action packed video, kids learn all about flying in the world's greatest jets. We'll travel to BOEING and see how a real flight simulator works. Then we'll talk with the men and women who test fly all the new Boeing jets, and find out what it takes to become a jet pilot. We'll also find out what makes a plane fly, and how a jet airplane works. Throughout the tape, great action shots of the Blue Angels and real fighter pilots are used to keep the action lively.

Career Education; Career Development

Paramedic

14024 VH

PI 30 min 1996 Media Pro

When you dial 911 and you need immediate emergency care, who do you think is going to show up? The paramedic is highly skilled and well-trained professional who is on the front line when it comes to helping the public in major trauma situations. Paramedics are usually the first people to assist the victim, and their goal is to keep the patient alive as he is quickly rushed to the hospital. The job is very exciting and can

sometimes be dangerous, as paramedics rush through city streets with their sirens blaring, on their way to assist a person in trouble. I Wanna Be A Paramedic is an excellent look at the real-life drama that plays out daily for a big city paramedic.

Career Education; Career Development

Police Officer

14023 VH

PI 30 min 1996 Media Pro

Step into the world of law enforcement as host Steve Pool hooks up with the Washington State Patrol. Kids will find out what it's like to train at the patrol academy, how to drive a patrol car in a high speed chase, and how officers cope with the dangers on the highway. How does radar work? How do the sirens, radios and computers work? How hard is it to get accepted at the academy? I Wanna Be A Police Officer is a fascinating look at the dedication discipline, and determination needed to be a police officer.

Career Development; Career Education

Race Car Driver

14028 VH

PI 30 min 1995 Media Pro

Ask kids what occupation looks the most thrilling and dangerous of all, and you'll usually hear the answer-Race Car Driver. But, is it really that dangerous, and are race car drivers just thrill seekers? Well, in this exciting program, kids will hear from two of the world's most famous drivers-Danny Sullivan and Maricio Gugelmin, and they might be surprised at what they learn! How fast they go, how do you become a race driver, how much does a race car weigh. This video shows many shots of racing action. This video will thrill kids of all ages!

Career Education; Career Development

Ship Captain

14027 VH

PI 29 min 1995 Media Pro

In this learning adventure, Steve Pool takes us through the world of ships and shipping in a way that kids will love. Right off the bat, we'll go for a tour of a real working Coast Guard Cutter, and see some great shots of the Coast Guard in action. The tour also includes great interviews with shipboard personnel who talk about life at sea and the many special jobs on board. As a great added bonus, we will go along for a look at one of the world's great sea ports, and watch as a giant container ships and freighters are unloaded. The amazing scenes of huge ships, cranes, and machinery is something that will hold the attention of all kids.

Career Development; Career Education

Train Engineer

14026 VH

PI 30 min 1995 Media Pro

There's nothing quite like the sound of a huge train moving down the tracks, and all kids love the sounds of the old steam engine. In this program, Emmy Award winning host Steve Pool takes us on a tour of a real working diesel, and shows us how a train really operates. After talking to a real train engineer, we'll learn all kinds of fascinating information about trains, and what it's like to work on one. Then it's off for a ride on a huge steam locomotive, where we'll actually sit up front in the engine compartment as it chugs down the line. The sights and sound of this tape will thrill kids of all ages.

Career Education; Career Development

Work With Animals

14025 VH

PI 30 min 1995 Media Pro

Working with animals is the dream occupation of many children. Some kids want to become a veterinarian, while others dream of working at the zoo as an animal keeper. In this program, we'll go behind the scenes and have a look at the exciting world of animal work. Our interviews include a talk with a vet at one of America's major zoological parks, and we'll actually witness work being done on a sick animal. I Wanna Work With Animals profiles zoo keepers and vets, and shows kids what it's like to work in animal care, and how to get into the field.
